

Department of Aging and Disability Services
Approved Diagnostic Codes for Persons with Related Conditions

The following diagnostic codes are found in the *International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM), 2006*, and are recognized by the Department of Aging and Disability Services (DADS) as a related condition.

In accordance with the Code of Federal Regulations, Title 42, 435.1009, a related condition is a severe and chronic disability that:

(A) is attributed to:

- i. cerebral palsy or epilepsy; or
- ii. any other condition, other than mental illness, found to be closely related to mental retardation because the condition results in impairment of general intellectual functioning or adaptive behavior similar to that of individuals with mental retardation, and requires treatment or services similar to those required for individuals with mental retardation;

(B) is manifested before the individual reaches age 22;

(C) is likely to continue indefinitely; and

(D) results in substantial functional limitation in at least three of the following areas of major life activity:

- i. self-care;
- ii. understanding and use of language;
- iii. learning;
- iv. mobility;
- v. self-direction; and
- vi. capacity for independent living.

A primary diagnosis by a licensed physician of a related condition may be required to meet eligibility for the following Medicaid programs: ICF/MR, CLASS, HCS, TxHmL, DBMD and CWP. Please refer to the applicable rules governing those programs for complete information regarding eligibility.

Infectious and Parasitic Diseases (137-139)

138 Late effects of acute poliomyelitis

Neoplasm of the Brain (140-239)

191 Malignant neoplasm of the brain

237 Neoplasm of uncertain behavior of endocrine glands and nervous system

237.7 Neurofibromatosis (von Recklinghausen's Disease)

Endocrine, Nutritional and Metabolic Diseases and Immunity Disorders (240-279)

243 Congenital hypothyroidism

244 Acquired hypothyroidism

244.9 Unspecified hypothyroidism

252.0 Hyperparathyroidism

270.8 Lowe (-Terrey-MacLachlan) syndrome (oculocerebrorenal dystrophy)

272.7 Lipidoses

275.49 Other disorders of calcium metabolism (pseudohypoparathyroidism)

277.2 Other disorders of purine and pyrimidine metabolism (Lesch-Nyhan syndrome)

277.5 Mucopolysaccharidosis (Hunter's syndrome, Hurler's syndrome, Scheie's syndrome)

277.8 Other specified disorders of metabolism

277.9 Unspecified disorder of metabolism (enzymopathy NOS)

279.11 DiGeorge's syndrome

Diseases of the Blood and Blood-Forming Organs (280-289)

287.3 Primary thrombocytopenia

287.30 Primary thrombocytopenia unspecified

287.33 Congenital and hereditary thrombocytopenic purpura (congenital and hereditary thrombocytopenia; Thrombocytopenia with Absent Radi (TAR) syndrome)

Psychoses with Origin Specific to Childhood (299)

299.0 Autistic disorder (childhood autism; infantile psychosis; Kanner's syndrome)

299.1 Childhood disintegrative disorder

299.8 Other specified pervasive developmental disorders (Asperger's disorder, atypical childhood psychosis; borderline psychosis of childhood)

299.9 Unspecified pervasive developmental disorder (pervasive developmental disorder NOS)

Gilles de la Tourettes Disorder (307.23)

307.23 Tourette's disorder (motor-verbal tic disorder)

Specific Nonpsychotic Mental Disorders - Due to organic brain damage (310-311)

310.0 Frontal lobe syndrome (lobotomy syndrome; postleucotomy syndrome [state])

310.2 Postconcussion syndrome

310.8 Other specified nonpsychotic mental disorders following organic brain damage (postencephalitic syndrome)

310.9 Unspecified non-psychotic mental disorder following organic brain damage

Specific Delays in Development (315.9)

315.9 Unspecified delay in development (developmental disorder NOS)

Nervous System and Sense Organs (320-389)

320.9 Meningitis due to unspecified bacterium
323 Encephalitis, myelitis, encephalomyelitis
323.9 Unspecified cause of encephalitis
330 Cerebral degenerations usually manifest in childhood
330.0 Metachromatic leukodystrophy
330.8 Other specified cerebral degenerations in childhood (Alper's disease or gray-matter degeneration; infantile necrotizing encephalomyelopathy; Leigh's disease; subacute necrotizing encephalopathy or encephalomyelopathy, Rett's syndrome)
331.11 Pick's disease
331.3 Communicating hydrocephalus
331.4 Obstructive hydrocephalus
331.8 Other cerebral degeneration
331.81 Reye's syndrome
331.89 Cerebral ataxia
331.9 Cerebral degeneration, unspecified
332.0 Paralysis agitans (Parkinson's disease)
332.1 Secondary Parkinsonism
333.4 Huntington's chorea
333.6 Idiopathic torsion dystonia
333.7 Symptomatic torsion dystonia (athetoid cerebral palsy)
334.0 Friedreich's ataxia
334.8 Other spinocerebellar diseases (ataxia-telangiectasia [Louis-Bar syndrome])
335.10 Spinal muscular atrophy, unspecified
335.11 Kugelberg-Welander disease
336.9 Unspecified disease of spinal cord
340 Multiple sclerosis
341.9 Demyelinating disease of central nervous system, unspecified
342.1 Spastic hemiplegia
342.9 Hemiplegia, unspecified
343.0 Diplegic (congenital diplegia)
343.9 Infantile cerebral palsy, unspecified
344.0 Quadriplegia and quadriplegia
344.1 Paraplegia (paralysis of both lower limbs)
344.5 Unspecified monoplegia
344.9 Paralysis, unspecified
345.0 Generalized non-convulsive epilepsy
345.1 Generalized convulsive epilepsy
345.2 Petit mal status
345.3 Grand mal status
345.4 Partial epilepsy, with impairment of consciousness (psychomotor epilepsy)
345.9 Epilepsy, unspecified
348.0 Cerebral cysts (arachnoid cyst)

- 348.1 Anoxic brain damage
- 348.3 Encephalopathy, not elsewhere classified
- 349.8 Other specified disorders of nervous system
- 349.9 Unspecified disorders of nervous system
- 350.1 Trigeminal neuralgia
- 358.0 Myasthenia gravis
- 359.0 Congenital hereditary muscular dystrophy
- 359.1 Hereditary progressive muscular dystrophy
- 359.8 Other myopathies
- 369.0 Profound impairment, both eyes
- 369.1 Moderate or severe impairment, better eye, profound impairment lesser eye
- 369.4 Legal blindness, as defined in U.S.A.
- 389.0 Conductive hearing loss
- 389.1 Sensorineural hearing loss
- 389.2 Mixed conductive and sensorineural hearing loss
- 389.7 Deaf mutism, not elsewhere classifiable
- 389.8 Other specified forms of hearing loss
- 389.9 Unspecified hearing loss

Cerebrovascular Disease (430-438)

- 436 Acute, but ill-defined cerebrovascular disease
- 438 Late effects of cerebrovascular disease

Arthropathies and Related Disorders (710-719)

- 710.4 Polymyositis
- 714.3 Juvenile chronic polyarthritis

Rheumatism, Excluding the Back (725-729)

- 728.3 Other specific muscle disorders (arthrogryposis)

Congenital Anomalies (740-759)

- 741.0 Spina bifida with hydrocephalus
- 741.9 Spina bifida without mention of hydrocephalus
- 742.0 Encephalocele
- 742.2 Reduction deformities of brain
- 742.3 Congenital hydrocephalus
- 742.8 Other specified anomalies of nervous system (familial dysautonomia; Riley-Day syndrome)
- 742.9 Unspecified anomaly of brain, spinal cord, and nervous system
Anomalies of cerebrovascular system (arteriovenous malformation of brain; cerebral arteriovenous aneurysm, congenital; congenital anomalies of cerebral vessels)
[EXCLUDES ruptured cerebral (arteriovenous) aneurysm (430)]
- 754.8 Larsen's syndrome
- 755 Other congenital anomalies of limbs
- 755.23 Longitudinal deficiency, combined, involving humerus, radius, and ulna (complete or incomplete)

755.25	Longitudinal deficiency, radioulnar, complete or partial (with or without distal deficiencies, incomplete)
755.33	Longitudinal deficiency, combined, involving femur, tibia, and fibula (complete or incomplete)
755.55	Acrocephalosyndactyly (Apert's syndrome)
756.0	Anomalies of skull and face bones (Hallerman-Streiff syndrome, craniosynostosis)
756.10	Anomalies of spine, unspecified
756.51	Osteogenesis imperfecta
756.59	Conradi syndrome
758.0	Down's syndrome
758.1	Patau's syndrome
758.3	Autosomal deletion syndromes
758.6	Gonadal dysgenesis (Turner's syndrome)
758.7	Klinefelter's syndrome
758.9	Conditions due to anomaly of unspecified chromosome
759.5	Tuberous sclerosis
759.81	Prader-Willi syndrome
759.82	Marfan syndrome
759.83	Fragile X syndrome
759.89	Other specified anomalies (Cornelia de Lange's syndrome, Seckel syndrome); Congenital malformation syndromes affecting multiple systems, NEC; Angelman's Syndrome; Cerebrocostomandibular syndrome)

Certain Conditions Originating in the Perinatal Period (760-779)

760.71	Fetal alcohol syndrome
767.4	Injury to spine and spinal cord
768.5	Severe birth asphyxia
771.0	Congenital rubella
779	Other and ill-defined conditions originating in the perinatal period

Codes

The following fifth digit sub-classification is for use with the appropriate codes in categories 800, 801, 803, 804, and 851-854:

0	unspecified state of consciousness
1	with no loss of consciousness
2	with brief (less than one hour) loss of consciousness
3	with moderate (1-24 hours) loss of consciousness and return to pre-existing conscious level
4	with moderate (1-24 hours) loss of consciousness
5	with prolonged (more than 24 hours) loss of consciousness, without return to pre-existing conscious level. Use the fifth-digit 5 to designate when a patient is unconscious and dies before regaining consciousness, regardless of the duration of the loss of consciousness
6	with loss of consciousness of unspecified duration
9	with concussion, unspecified

Fracture of Skull (800 – 804)

Fracture of Vault of Skull (800)

(Requires fifth digit - see chart on page 5 for codes and definitions)

Includes: frontal bone and parietal bone.

- 800.0 Closed without mention of intracranial injury
- 800.1 Closed with cerebral laceration and contusion
- 800.2 Closed with subarachnoid, subdural, and extradural hemorrhage
- 800.3 Closed with other and unspecified intracranial hemorrhage
- 800.4 Closed with intracranial injury of other and unspecified nature
- 800.5 Open without mention of intracranial injury
- 800.6 Open with cerebral laceration and contusion
- 800.7 Open with subarachnoid, subdural, and extradural hemorrhage
- 800.8 Open with other and unspecified intracranial hemorrhage
- 800.9 Open with intracranial injury of other and unspecified nature

Fracture of Base of Skull (801)

(Requires fifth digit - see chart on page 5 for codes and definitions)

Includes: fossa, sinus, anterior, ethmoid, middle, frontal, posterior, sphenoid bone, occiput bone, temporal bone, and orbital roof.

- 801.0 Closed without mention of intracranial injury
- 801.1 Closed with cerebral laceration and contusion
- 801.2 Closed with subarachnoid, subdural, and extradural hemorrhage
- 801.3 Closed with other and unspecified intracranial hemorrhage
- 801.4 Closed with intracranial injury of other and unspecified nature
- 801.5 Open without mention of intracranial injury
- 801.6 Open with cerebral laceration and contusion
- 801.7 Open with subarachnoid, subdural, and extradural hemorrhage
- 801.8 Open with other and unspecified intracranial hemorrhage
- 801.9 Open with intracranial injury of other and unspecified nature

Other and Unqualified Skull Fractures (803)

(Requires fifth digit - see chart on page 5 for codes and definitions)

Includes: skull NOS and skull multiple NOS.

- 803.0 Closed without mention of intracranial injury
- 803.1 Closed with cerebral laceration and contusion
- 803.2 Closed with subarachnoid, subdural, and extradural hemorrhage
- 803.3 Closed with other and unspecified intracranial hemorrhage
- 803.4 Closed with intracranial injury of other and unspecified nature
- 803.5 Open without mention of intracranial injury
- 803.6 Open with cerebral laceration and contusion
- 803.7 Open with subarachnoid, subdural, and extradural hemorrhage
- 803.8 Open with other and unspecified intracranial hemorrhage
- 803.9 Open with intracranial injury of other unspecified nature

Multiple Fractures Involving Skull or Face with Other Bones (804)
(Requires fifth digit — see chart on page 5 for codes and definitions)

804.0	Closed without mention of intracranial injury
804.1	Closed with cerebral laceration and contusion
804.2	Closed with subarachnoid, subdural, and extradural hemorrhage
804.3	Closed with other and unspecified intracranial hemorrhage
804.4	Closed with intracranial injury of other and unspecified nature
804.5	Open without mention of intracranial injury
804.6	Open with cerebral laceration and contusion
804.7	Open with subarachnoid, subdural, and extradural hemorrhage
804.8	Open with other and unspecified intracranial hemorrhage
804.9	Open with intracranial injury of other and unspecified nature

Intracranial Injury, Excluding Those with Skull Fracture (850 – 854)

Concussion (850)

Includes: commotio cerebri

850.0	With no loss of consciousness (concussion with mental confusion or disorientation, without loss of consciousness)
850.1	With brief loss of consciousness (of consciousness for less than one hour)
850.2	With moderate loss of consciousness (loss of consciousness for 1-24 hours)
850.3	With prolonged loss of consciousness and return to pre-existing conscious level (loss of consciousness for more than 24 hours with complete recovery)
850.4	With prolonged loss of consciousness, without return to pre-existing conscious level
850.5	With loss of consciousness of unspecified duration
850.9	Concussion, unspecified

Cerebral Laceration and Contusion (851)

(Requires fifth digit - see chart on page 5 for codes and definitions)

851.0	Cortex (cerebral) contusion without mention of open intracranial wound
851.1	Cortex (cerebral) contusion with open intracranial wound
851.2	Cortex (cerebral) laceration without mention of open intracranial wound
851.3	Cortex (cerebral) laceration with open intracranial wound
851.4	Cerebellar or brain stem contusion without mention of open intracranial wound
851.5	Cerebellar or brain stem contusion with open intracranial wound
851.6	Cerebellar or brain stem laceration without mention of open intracranial wound
851.7	Cerebellar or brain stem laceration with open intracranial wound
851.8	Other and unspecified cerebral laceration and contusion, without mention of open intracranial wound
851.9	Other and unspecified cerebral laceration and contusion, with open intracranial wound

Subarachnoid, Subdural, and Extradural Hemorrhage Following Injury (852)

(Requires fifth digit — see chart on page 5 for codes and definitions)

- 852.0 Subarachnoid hemorrhage following injury without mention of open intracranial wound (middle meningeal hemorrhage following injury)
- 852.1 Subarachnoid hemorrhage following injury with open intracranial wound
- 852.2 Subdural hemorrhage following injury without mention of open intracranial wound
- 852.3 Subdural hemorrhage following injury with open intracranial wound
- 852.4 Extradural hemorrhage following injury without mention of open intracranial wound (epidural hematoma following injury)
- 852.5 Extradural hemorrhage following injury with open intracranial wound

Other and Unspecified Intracranial Hemorrhage Following Injury (853)

(Requires fifth digit — see chart on page 5 for codes and definitions)

- 853.0 Without mention of open intracranial wound (cerebral compression due to injury, intracranial hematoma following injury, traumatic cerebral hemorrhage)
- 853.1 With open intracranial wound

Intracranial Injury of Other and Unspecified Nature (854)

(Requires fifth digit — see chart on page 5 for codes and definitions)

Includes: Brain injury NOS; head injury NOS

- 854.0 Without mention of open intracranial wound
- 854.1 With open intracranial wound

Open Wound of Head, Neck, and Trunk Open Wound of Ocular Adnex (870 – 879)

- 870.0 Laceration of skin of eyelid and periocular area
- 870.1 Laceration of eyelid, full-thickness, not involving lacrimal passages
- 870.2 Laceration of eyelid involving lacrimal passages
- 870.3 Penetrating wound of orbit, without mention of foreign body
- 870.4 Penetrating wound of orbit with foreign body in orbit
- 870.8 Other specified open wounds of ocular adnexa
- 870.9 Unspecified open wound of ocular adnexa

Injury to Nerves and Spinal Cord (950-957)

Injury to Optic Nerve and Pathways (950)

- 950.0 Optic nerve injury (second cranial nerve)
- 950.1 Injury to optic chiasm
- 950.2 Injury to optic pathways
- 950.3 Injury to visual cortex
- 950.9 Unspecified (traumatic blindness NOS)

Injury to Other Cranial Nerves (951)

- 951.0 Injury to oculomotor nerve (third cranial nerve)
- 951.1 Injury to trochlear nerve (fourth cranial nerve)

- 951.2 Injury to trigeminal nerve (fifth cranial nerve)
- 951.3 Injury to abducens nerve (sixth cranial nerve)
- 951.4 Injury to facial nerve (seventh cranial nerve)
- 951.5 Injury to acoustic nerve (auditory nerve, eighth cranial nerve)
- 951.6 Injury to accessory nerve (eleventh cranial nerve)
- 951.7 Injury to hypoglossal nerve (twelfth cranial nerve)
- 951.8 Injury to other specified cranial nerves (glossopharyngeal [ninth cranial] nerve; olfactory [first cranial] nerve; pneumogastric [tenth cranial] nerve; traumatic anosmia NOS; vagus [tenth cranial] nerve)
- 951.9 Injury to unspecified cranial nerve

Spinal Cord Injury Without Evidence of Spinal Bone Injury (952)

- 952.0 Cervical
- 952.00 C1-C4 level with unspecified spinal cord injury (spinal cord injury, cervical region NOS)
- 952.01 C1-C4 level with complete lesion of spinal cord
- 952.02 C1-C4 level with anterior cord syndrome
- 952.03 C1-C4 level with central cord syndrome
- 952.04 C1-C4 level with other specified spinal cord injury (incomplete spinal cord lesion at C1-C4 level: NOS with posterior cord syndrome)
- 952.05 C5-C7 level with unspecified spinal cord injury
- 952.06 C5-C7 level with complete lesion of spinal cord
- 952.07 C5-C7 level with anterior cord syndrome
- 952.08 C5-C7 level with central cord syndrome
- 952.09 C5-C7 level with other specified spinal cord injury (incomplete spinal cord lesion at C5-C7 level: NOS with posterior cord syndrome)
- 952.1 Dorsal (thoracic)
- 952.10 T1-T6 level with unspecified spinal cord injury (spinal cord injury, thoracic region NOS)
- 952.11 T1-T6 level with complete lesion of spinal cord
- 952.12 T1-T6 level with anterior cord syndrome
- 952.13 T1-T6 level with central cord syndrome
- 952.14 T1-T6 level with other specified spinal cord injury (incomplete spinal cord lesion at T1-T6 level: NOS with posterior cord syndrome)
- 952.15 T7-T12 level with unspecified spinal cord injury
- 952.16 T7-T12 level with complete lesion of spinal cord
- 952.17 T7-T12 level with anterior cord syndrome
- 952.18 T7-T12 level with central cord syndrome
- 952.19 T7-T12 level with other specified spinal cord injury (incomplete spinal cord lesion at T7-T12 level: NOS with posterior cord syndrome)
- 952.2 Lumbar
- 952.3 Sacral
- 952.4 Cauda equina
- 952.8 Multiple sites of spinal cord
- 952.9 Unspecified site of spinal cord

Alphabetical List of Approved Diagnostic Codes for Persons with Related Conditions (as of 10/1/07)	ICD-9-2006 Code
Acquired hypothyroidism	244
Acrocephalosyndactyly (Apert's syndrome)	755.55
Acute, but ill-defined cerebrovascular disease	436
Angelman's Syndrome	759.89
Anomalies of cerebrovascular system (arteriovenous malformation of brain; cerebral arteriovenous aneurysm, congenital; congenital anomalies of cerebral vessels) [EXCLUDES ruptured cerebral (arteriovenous) aneurysm (430)]	747.81
Anomalies of skull and face bones (Hallerman-Streiff syndrome, craniosynostosis)	756.0
Anomalies of spine, unspecified	756.10
Anoxic brain damage	348.1
Autistic disorder (childhood autism; infantile psychosis; Kanner's syndrome)	299.0
Autosomal deletion syndromes	758.3
C1-C4 level with anterior cord syndrome	952.02
C1-C4 level with central cord syndrome	952.03
C1-C4 level with complete lesion of spinal cord	952.01
C1-C4 level with other specified spinal cord injury (incomplete spinal cord lesion at C1-C4 level: NOS with posterior cord syndrome)	952.04
C1-C4 level with unspecified spinal cord injury (spinal cord injury, cervical region NOS)	952.00
C5-C7 level with anterior cord syndrome	952.07
C5-C7 level with central cord syndrome	952.08
C5-C7 level with complete lesion of spinal cord	952.06
C5-C7 level with other specified spinal cord injury (incomplete spinal cord lesion at C5-C7 level: NOS with posterior cord syndrome)	952.09
C5-C7 level with unspecified spinal cord injury	952.05
Cauda equina	952.4
Cerebellar or brain stem contusion with open intracranial wound	851.5
Cerebellar or brain stem contusion without mention of open intracranial wound	851.4
Cerebellar or brain stem laceration with open intracranial wound	851.7
Cerebellar or brain stem laceration without mention of open intracranial wound	851.6
Cerebral ataxia	331.89
Cerebral cysts (arachnoid cyst)	348.0
Cerebral degeneration, unspecified	331.9
Cerebral degenerations usually manifest in childhood	330
Cerebrocostomandibular syndrome	759.89
Cervical	952.0
Childhood disintegrative disorder	299.1
Closed with cerebral laceration and contusion	800.1
Closed with cerebral laceration and contusion	801.1
Closed with cerebral laceration and contusion	803.1
Closed with cerebral laceration and contusion	804.1
Closed with intracranial injury of other and unspecified nature	800.4
Closed with intracranial injury of other and unspecified nature	801.4
Closed with intracranial injury of other and unspecified nature	803.4
Closed with intracranial injury of other and unspecified nature	804.4

Alphabetical List of Approved Diagnostic Codes for Persons with Related Conditions (as of 10/1/07)	ICD-9-2006 Code
Closed with other and unspecified intracranial hemorrhage	800.3
Closed with other and unspecified intracranial hemorrhage	801.3
Closed with other and unspecified intracranial hemorrhage	803.3
Closed with other and unspecified intracranial hemorrhage	804.3
Closed with subarachnoid, subdural, and extradural hemorrhage	800.2
Closed with subarachnoid, subdural, and extradural hemorrhage	801.2
Closed with subarachnoid, subdural, and extradural hemorrhage	803.2
Closed with subarachnoid, subdural, and extradural hemorrhage	804.2
Closed without mention of intracranial injury	800.0
Closed without mention of intracranial injury	801.0
Closed without mention of intracranial injury	803.0
Closed without mention of intracranial injury	804.0
Communicating hydrocephalus	331.3
Concussion, unspecified	850.9
Conditions due to anomaly of unspecified chromosome	758.9
Conductive hearing loss	389.0
Congenital and hereditary thrombocytopenic purpura (congenital and hereditary thrombocytopenia; Thrombocytopenia with Absent Radi (TAR) syndrome	287.33
Congenital hereditary muscular dystrophy	359.0
Congenital hydrocephalus	742.3
Congenital hypothyroidism	243
Congenital malformation syndromes affecting multiple systems, NEC	759.89
Congenital rubella	771.0
Conradi syndrome	756.59
Cortex (cerebral) contusion with open intracranial wound	851.1
Cortex (cerebral) contusion without mention of open intracranial wound	851.0
Cortex (cerebral) laceration with open intracranial wound	851.3
Cortex (cerebral) laceration without mention of open intracranial wound	851.2
Deaf mutism, not elsewhere classifiable	389.7
Demyelinating disease of central nervous system, unspecified	341.9
DiGeorge's syndrome	279.11
Dorsal (thoracic)	952.1
Down's syndrome	758.0
Encephalitis, myelitis, encephalitis	323
Encephalocele	742.0
Encephalopathy, not elsewhere classified	348.3
Epilepsy, unspecified	345.9
Extradural hemorrhage following injury with open intracranial wound	852.5
Extradural hemorrhage following injury without mention of open intracranial wound (epidural hematoma following injury)	852.4
Fetal alcohol syndrome	760.71
Fragile X syndrome	759.83
Friedreich's ataxia	334.0
Frontal lobe syndrome (lobotomy syndrome; postleucotomy syndrome [state])	310.0

Alphabetical List of Approved Diagnostic Codes for Persons with Related Conditions (as of 10/1/07)	ICD-9-2006 Code
Generalized convulsive epilepsy	345.1
Generalized non-convulsive epilepsy	345
Gonadal dysgenesis (Turner's syndrome)	758.6
Grand mal status	345.3
Hemiplegia, unspecified	342.9
Hereditary progressive muscular dystrophy	359.1
Huntington's chorea	333.4
Hyperparathyroidism	252.0
Idiopathic torsion dystonia	333.6
Infantile cerebral palsy, unspecified	343.9
Injury to abducens nerve (sixth cranial nerve)	951.3
Injury to accessory nerve (eleventh cranial nerve)	951.6
Injury to acoustic nerve (auditory nerve, eighth cranial nerve)	951.5
Injury to facial nerve (seventh cranial nerve)	951.4
Injury to hypoglossal nerve (twelfth cranial nerve)	951.7
Injury to oculomotor nerve (third cranial nerve)	951.0
Injury to optic chiasm	950.1
Injury to optic pathways	950.2
Injury to other specified cranial nerves (glossopharyngeal [ninth cranial] nerve; olfactory [first cranial] nerve; pneumogastric [tenth cranial] nerve; traumatic anosmia NOS; vagus [tenth cranial] nerve)	951.8
Injury to spine and spinal cord	767.4
Injury to trigeminal nerve (fifth cranial nerve)	951.2
Injury to trochlear nerve (fourth cranial nerve)	951.1
Injury to unspecified cranial nerve	951.9
Injury to visual cortex	950.3
Juvenile chronic polyarthritis	714.3
Klinefelter's syndrome	758.7
Kugelberg-Welander disease	335.11
Laceration of eyelid involving lacrimal passages	870.2
Laceration of eyelid, full-thickness, not involving lacrimal passages	870.1
Laceration of skin of eyelid and periocular area	870.0
Larsen's syndrome	754.8
Late effects of acute poliomyelitis	138
Late effects of cerebrovascular disease	438
Legal blindness, as defined in U.S.A.	369.4
Lipidoses	272.7
Longitudinal deficiency, combined, involving femur, tibia, and fibula (complete or incomplete)	755.33
Longitudinal deficiency, combined, involving humerus, radius, and ulna (complete or incomplete)	755.23
Longitudinal deficiency, radioulnar, complete or partial (with or without distal deficiencies, incomplete)	755.25
Lowe (-Terrey-MacLachlan) syndrome (oculocerebrorenal dystrophy)	270.8
Lumbar	952.2

Alphabetical List of Approved Diagnostic Codes for Persons with Related Conditions (as of 10/1/07)	ICD-9-2006 Code
Malignant neoplasm of the brain	191
Marfan syndrome	759.82
Meningitis due to unspecified bacterium	320.9
Metachromatic leukodystrophy	330.0
Mixed conductive and sensorineural hearing loss	389.2
Moderate or severe impairment, better eye, profound impairment lesser eye	369.1
Mucopolysaccharidosis (Hunter's syndrome, Hurler's syndrome, Scheie's syndrome)	277.5
Multiple sclerosis	340
Multiple sites of spinal cord	952.8
Myasthenia gravis	358.0
Neoplasm of uncertain behavior of endocrine glands and nervous system	237
Neurofibromatosis (von Recklinghausen's Disease)	237.7
Obstructive hydrocephalus	331.4
Open with cerebral laceration and contusion	800.6
Open with cerebral laceration and contusion	801.6
Open with cerebral laceration and contusion	803.6
Open with cerebral laceration and contusion	804.6
Open with intracranial injury of other and unspecified nature	800.9
Open with intracranial injury of other and unspecified nature	801.9
Open with intracranial injury of other and unspecified nature	804.9
Open with intracranial injury of other unspecified nature	803.9
Open with other and unspecified intracranial hemorrhage	800.8
Open with other and unspecified intracranial hemorrhage	801.8
Open with other and unspecified intracranial hemorrhage	803.8
Open with other and unspecified intracranial hemorrhage	804.8
Open with subarachnoid, subdural, and extradural hemorrhage	800.7
Open with subarachnoid, subdural, and extradural hemorrhage	801.7
Open with subarachnoid, subdural, and extradural hemorrhage	803.7
Open with subarachnoid, subdural, and extradural hemorrhage	804.7
Open without mention of intracranial injury	800.5
Open without mention of intracranial injury	801.5
Open without mention of intracranial injury	803.5
Open without mention of intracranial injury	804.5
Optic nerve injury (second cranial nerve)	950.0
Osteogenesis imperfecta	756.51
Other and ill-defined conditions originating in the perinatal period	779
Other and unspecified cerebral laceration and contusion, with open intracranial wound	851.9
Other and unspecified cerebral laceration and contusion, without mention of open intracranial wound	851.8
Other cerebral degeneration	331.8
Other congenital anomalies of limbs	755
Other disorders of calcium metabolism (pseudohypoparathyroidism)	275.49
Other disorders of purine and pyrimidine metabolism (Lesch-Nyhan syndrome)	277.2
Other myopathies	359.8

Alphabetical List of Approved Diagnostic Codes for Persons with Related Conditions (as of 10/1/07)	ICD-9-2006 Code
Other specific muscle disorders (arthrogryposis)	728.3
Other specified anomalies (Cornelia de Lange's syndrome, Seckel syndrome)	759.89
Other specified anomalies of nervous system (familial dysautonomia; Riley-Day syndrome)	742.8
Other specified cerebral degenerations in childhood (Alper's disease or gray-matter degeneration; infantile necrotizing encephalomyelopathy; Leigh's disease; subacute necrotizing encephalopathy or encephalomyelopathy, Rett's syndrome)	330.8
Other specified disorders of metabolism	277.8
Other specified disorders of nervous system	349.8
Other specified forms of hearing loss	389.8
Other specified nonpsychotic mental disorders following organic brain damage (postencephalitic syndrome)	310.8
Other specified open wounds of ocular adnexa	870.8
Other specified pervasive developmental disorders (Asperger's disorder, atypical childhood psychosis; borderline psychosis of childhood)	299.8
Other spinocerebellar diseases (ataxia-telangiectasia [Louis-Bar syndrome])	334.8
Paralysis agitans (Parkinson's disease)	332.0
Paralysis, unspecified	344.9
Paraplegia (paralysis of both lower limbs)	344.1
Partial epilepsy, with impairment of consciousness (psychomotor epilepsy)	345.4
Patau's syndrome	758.1
Penetrating wound of orbit with foreign body in orbit	870.4
Penetrating wound of orbit, without mention of foreign body	870.3
Petit mal status	345.2
Pick's disease	331.11
Polymyositis	710.4
Postconcussion syndrome	310.2
Prader-Willi syndrome	759.81
Primary thrombocytopenia	287.3
Primary thrombocytopenia unspecified	287.30
Profound impairment, both eyes	369.0
Quadriplegia and quadripareisis	344.0
Reduction deformities of brain	742.2
Reye's syndrome	331.81
Sacral	952.3
Secondary Parkinsonism	332.1
Sensorineural hearing loss	389.1
Severe birth asphyxia	768.5
Spastic hemiplegia	342.1
Spina bifida with hydrocephalus	741.0
Spina bifida without mention of hydrocephalus	741.9
Spinal muscular atrophy, unspecified	335.10
Subarachnoid hemorrhage following injury with open intracranial wound	852.1
Subarachnoid hemorrhage following injury without mention of open intracranial wound (middle meningeal hemorrhage following injury)	852.0

Alphabetical List of Approved Diagnostic Codes for Persons with Related Conditions (as of 10/1/07)	ICD-9-2006 Code
Subdural hemorrhage following injury with open intracranial wound	852.3
Subdural hemorrhage following injury without mention of open intracranial wound	852.2
Symptomatic torsion dystonia (athetoid cerebral palsy)	333.7
T1-T6 level with anterior cord syndrome	952.12
T1-T6 level with central cord syndrome	952.13
T1-T6 level with complete lesion of spinal cord	952.11
T1-T6 level with other specified spinal cord injury (incomplete spinal cord lesion at T1-T6 level: NOS with posterior cord syndrome)	952.14
T1-T6 level with unspecified spinal cord injury (spinal cord injury, thoracic region NOS)	952.10
T7-T12 level with anterior cord syndrome	952.17
T7-T12 level with central cord syndrome	952.18
T7-T12 level with complete lesion of spinal cord	952.16
T7-T12 level with other specified spinal cord injury (incomplete spinal cord lesion at T7-T12 level: NOS with posterior cord syndrome)	952.19
T7-T12 level with unspecified spinal cord injury	952.15
Tourette's disorder (motor-verbal tic disorder)	307.23
Trigeminal neuralgia	350.1
Tuberous sclerosis	759.5
Unspecified (traumatic blindness NOS)	950.9
Unspecified anomaly of brain, spinal cord, and nervous system	742.9
Unspecified cause of encephalitis	323.9
Unspecified delay in development (developmental disorder NOS)	315.9
Unspecified disease of spinal cord	336.9
Unspecified disorder of metabolism (enzymopathy NOS)	277.9
Unspecified disorders of nervous system	349.9
Unspecified hearing loss	389.9
Unspecified hypothyroidism	244.9
Unspecified monoplegia	344.5
Unspecified non-psychotic mental disorder following organic brain damage	310.9
Unspecified open wound of ocular adnexa	870.9
Unspecified pervasive developmental disorder (pervasive developmental disorder NOS)	299.9
Unspecified site of spinal cord	952.9
With brief loss of consciousness (of consciousness for less than one hour)	850.1
With loss of consciousness of unspecified duration	850.5
With moderate loss of consciousness (loss of consciousness for 1-24 hours)	850.2
With no loss of consciousness (concussion with mental confusion or disorientation, without loss of consciousness)	850.0
With open intracranial wound	853.1
With open intracranial wound	854.1
With prolonged loss of consciousness and return to pre-existing conscious level (loss of consciousness for more than 24 hours with complete recovery)	850.3
With prolonged loss of consciousness, without return to pre-existing conscious level	850.4
Without mention of open intracranial wound	854.0
Without mention of open intracranial wound (cerebral compression due to injury, intracranial hematoma following injury, traumatic cerebral hemorrhage)	853.0

Updated List of ICD-9-CM Diagnostic Codes for Persons with Related Conditions

This policy clarification transmits an updated list of ICD-9-CM Diagnostic Codes for Persons with Related Conditions.

Attached is the updated list of ICD-9-CM codes that were added to the TDMHMR approved primary diagnoses of related conditions:

- 758.20 Edward's Syndrome (Trisomy: 18)
- 758.60 Bonnevie-Ullrich Syndrome

If you have any questions, please contact Don Mann, CLASS Unit Manager, at 512/438-3642

Sincerely,

To: Community Living Assistance and Support Services (CLASS) Providers

Subject: CLASS Policy Clarification No. 99004
Updated List of ICD-9-CM Diagnostic Codes for Persons with Related Conditions
Updated Related Conditions Eligibility Screening Instrument and Instructions
Updated Procedures for Processing Levels-of-Care (LOC).

This policy clarification transmits an updated list of ICD-9-CM Diagnostic Codes for Persons with Related Conditions, and replaces **CLASS Provider Manual** Form 3650-A/B Instructions, Attachment C and D. The updated procedures for processing LOCs should be added to the Form 3650-A/B Instructions under Transmittal and in Section 5200 of the **CLASS Provider Manual** until the manual revision is released.

Attached is the updated list of ICD-9-CM Diagnostic Codes for Persons with Related Conditions, Attachment C, and a copy of Instructions, Related Conditions Eligibility Screening Instrument, Attachment D.

Please note the following ICD-9-CM code that was added to the Texas Department of Mental Health and Mental Retardation (TDMHMR) approved primary diagnoses of related conditions:

- 330.8 Other specified cerebral degeneration's in childhood
Alper's disease or gray-matter degeneration
Infantile necrotizing encephalomyelopathy
Leigh's Disease
Subacute necrotizing encephalopathy or encephalomyelopathy
Rett's syndrome

- 747.81 Anomalies of cerebrovascular system
Arteriovenous malformation of brain
Cerebral arteriovenous aneurysm, congenital
Congenital anomalies of cerebral vessels
EXCLUDES ruptured cerebral (arteriovenous) aneurysm (430)

The Related Conditions Eligibility Screening Instrument and instructions has been updated to include a "not Applicable (N/A)" category in the screening instrument, N/A is circled only when the question does not apply to the individual due to his/her chronological age, personal preferences, or phase of life. An example of this is when young children will not have the motor skills to appropriately groom themselves without assistance. Due to the diversity of age ranges to be administered and assessed by the caseworkers and Registered Nurses you will need to be mindful of appropriate developmental tasks based on chronological age. In addition, the support routinely expected by a parent/caregiver, should not be scored as needing assistance.

For example, a young child routinely requires some encouragement or reminders to perform ADL/IADL tasks and would not be given a score of 1 unless they demonstrated a developmental lag (i.e., these reminders should not be considered as requiring assistance unless abnormal or excessive for chronological age).

Effective May 1, 1999, the procedure for processing an Initial, On-going, Denied and Purpose code E LOCs for CLASS is as follows:

- The provider makes a copy of a blank Form 3650-A/B, Level-of-Care (this form is no longer available through the Texas Department of Human Services (TDHS) warehouse).
- The provider completes Form 3650-A/B with a purpose code of 2 for an initial LOC and code 3 for an on-going or Purpose code E LOC and the Related Conditions Eligibility Screening Instrument to establish a LOC for a potential or on-going participant.
- The provider mails both the completed forms to:
Texas Department of Human Services
Long Term Care Policy
Attention: Vicki Munoz, Mail code W-519
P.O. Box 149030
Austin, Texas 78714-9030
- If the Form 3650-A/B or the Related Conditions Eligibility Screening Instrument is incomplete or the screening instrument is not included, it will be remanded back to the originator for corrections.
- If the Form 3660-A/B is complete, Ms. Munoz will date stamp it and log the form in the LOC log book.

For any questions concerning the LOC process, please contact your lead program specialist for your area. For any other questions, please contact Don Mann, CLASS Unit Manager, at (512) 438-3642.

Sincerely,
